

The Randalls

Managua, Nicaragua

¡Hola de Nicaragua!

¡Hola de Nicaragua!

Let your eyes be on the field . . . Ruth 2:9

Heavy rains prevented us from traveling up the mountainous road to Masatepe for the past few weeks. Finally, a sunny day made way for us to deliver groceries to each family in the sign language class. As soon as we arrived, the rains began and within a short time, the road was flooded. **Should we turn around? What if people are waiting?** We decided to drive on. When we arrived, we found a roomful of people waiting - eager to learn and to be known by us and one another.

As we left, each person expressed gratitude, lifted their heavy load of groceries to their shoulders, and went home to their families. One mother said they were down to eating only beans.

Glory to God! The deaf community is being included little by little in activities the hearing take for granted. Recently, we (the deaf community) were invited to worship together in a trilingual service. Words fall short in describing just how meaningful and rich events like this are for everyone!

The harvest truly is ripe and the time to reap is now!

Pray for the workers!!! The Lord is calling each one - some to go and others to support and pray for those who go! We'd love to have you come and help with the work! We need your prayers and support for the deaf to hear the Good News.

Mom carrying a bag of groceries towards the light!

Sewing in the midst of renovation

The renovation at La Boquita will soon be finished! God provided this very raw resource and the funds through generous donors to transform it into a beautiful lighthouse of hope and redemption for all who live on the coastland of Nicaragua and beyond!

Even during the renovation process, we have been utilizing the facilities - from sewing and English classes to serving meals and fellowshiping. We often receive invitations to visit homes in the community, and the Lord continues to connect us to others.

Special Need: Security is essential in Nicaragua. A wall and fence are needed on two sides of the property where previously robbers have entered. The estimated cost is \$4000.
